# NOTES TO THE FINANCIAL STATEMENTS

## 1 Reporting Entity

Union Assurance PLC ('the Company') is a public limited liability company incorporated and domiciled in Sri Lanka and the ordinary shares of the Company are listed on the Colombo Stock Exchange. The registered office and principal place of business of the Company is located at No. 20, St. Michael's Road, Colombo 03.

The Company's controlling entity and ultimate parent undertaking is John Keells Holdings PLC which is incorporated in Sri Lanka.

## 2 Approval of Financial Statements

The interim financial statements for the six months ended 30 June 2026 were authorised for issue by the Board of Directors on 14 August 2026.

## 3 Presentation of Financial Statements

These financial statements have been presented in compliance with the requirements of the companies Act No. 07 of 2007 and amendments thereto and Regulation of Insurance Industry (RII) Act No. 43 of 2000, Statement of Recommended Practice (SORP) issued by ICASL and the listing rules of the Colombo Stock Exchange.

## 4 Basis of Preparation and Changes To The Company's Accounting Policies

### 4.1 Basis of Preparation

The interim financial statements have been prepared in compliance with Sri Lanka Accounting Standard LKAS 34 – Interim Financial Reporting. These interim financial statements should be read in conjunction with the annual financial statements for the year ended 31 December 2025. Further, provisions of the Companies Act No.7 of 2007 have been considered in preparing the interim financial statements of the Company. The same accounting policies have been followed in preparation of these interim financial statements as stated in the Audited Financial Statements for the year ended 31 December 2025.

The interim condensed financial statements are presented in Sri Lankan Rupees (LKR) and all values are rounded to the nearest thousand except when otherwise indicated.

### 4.2 Fair value measurement and related fair value disclosures

The fair values of all the financial assets and financial liabilities recognised during the period were not materially different from the transaction prices at the date of initial recognition. All listed equity instruments were measured based on the market prices as at 30 June 2026 and classified as level 1 as per the fair value hierarchy. There were no transfers between Level 1 and Level 2 and no transfers into or out of Level 3 categories as per the fair value hierarchy during the reporting period.

## 5 SLFRS 9 - Financial Instruments and SLFRS 17 - Insurance Contracts

SLFRS 9 is effective for annual periods beginning on or after 1 January 2018. It replaces LKAS 39 - Financial Instruments: Recognition and Measurement.

Based on the proposed implementation of SLFRS 17 - Insurance contracts the entities whose predominant activity is issuing insurance contracts are permitted to defer the full application of SLFRS 9 until the adoption of SLFRS 17, which is financial period beginning on or after 1 January 2026.

According to the Statement of Alternative Treatment (SOAT) issued by the Institute of Chartered Accountants of Sri Lanka on the presentation of the Interim Financial Statements, the option has been granted to prepare the interim financial statements of the first two quarters of 2026 as per the application of SLFRS 4 Insurance Contracts. The Company has used the above temporary exemption.

Accordingly, for this interim period:

- ♦ Insurance contracts continue to be recognised, measured, and presented in accordance with SLFRS 4 Insurance Contracts.
- ♦ SLFRS 9 Financial Instruments has not been applied, consistent with the SoAT requirement that SLFRS 9 shall not be applied during interim periods where SLFRS 4 is continued.

The adoption of SLFRS 9 & SLFRS 17 standards is expected to have a material impact on the Company's financial position, financial performance, and related disclosures.

As per the SLFRS 9, financial assets will be reclassified based on business model assessments and contractual cash flow characteristics. The introduction of the Expected Credit Loss (ECL) model may accelerate impairment recognition compared to existing practices.

SLFRS 17 replaces SLFRS 4 and introduces a comprehensive and consistent measurement framework for insurance and reinsurance contracts. The Standard establishes principles for recognition, measurement, presentation, and disclosure, with the objective of improving transparency and comparability.

The Company measures its insurance contracts and reinsurance contracts held using appropriate measurement models based on product characteristics. The primary measurement models applied by the Company are the General Measurement Model (GMM) and the Variable Fee Approach (VFA).

Key concepts introduced by SLFRS 17 include the fulfilment cash flows, risk adjustment for non financial risk, and the Contractual Service Margin (CSM), which have been determined in accordance with the requirements of SLFRS 17. The Company has elected to disaggregate insurance finance income or expenses between profit or loss and other comprehensive income, in order to reduce earnings volatility arising from changes in interest rates.

On transition, the Company will apply the fair value approach due to the unavailability of complete and reliable historical data. Transition adjustments arising from the adoption of both SLFRS 17 and SLFRS 9 have been recognized directly in opening equity at the date of initial application, ensuring consistency between the measurement of insurance liabilities and the underlying financial assets.

SLFRS 17 results in significant changes to profit recognition patterns, establishes a clear distinction between insurance service results and insurance finance income or expenses, and requires separate presentation of insurance and reinsurance contracts in the financial statements. Accordingly, Insurance revenue under SLFRS 17 will no longer correspond to gross written premiums.

The Company has implemented the relevant accounting policies and methodologies required for SLFRS 17 and SLFRS 9 including appropriate governance structures, systems, and internal controls have been established, and the Company is substantially ready for go live. The implementation program has been supported by independent external actuarial and accounting expert consultants.

Management is currently in the process of validating the results arising from the application of these standards. As this validation process is still ongoing, no quantitative disclosures have been included in these interim financial statements.

## 6 Operating Segment

The Company is one legal entity however for Management purposes and to comply with the regulatory framework, the Company is organised into business units based on their products and services and has two reportable operating segments. These segments are managed separately because they require different operational, risk management and marketing strategies. All operating results are reviewed regularly by the Chief Executive Officer (CEO) and Corporate Management to make decisions regarding resource allocation and assess its performance, and for which financial information is available.
